What is Kotlin
Kotlin is a modern application language that boosts productivity and developer satisfaction.

- Multiplatform
- Concise
- Safe
- Expressive
- Interoperable
What is Kotlin

Kotlin is a preferred language for Android application development, used by over 60% of Android developers and in over 700 top Android apps.
Kotlin is the most widely used language on the JVM after Java, with a market share of roughly 18%.
Kotlin Multiplatform, which is currently in Beta, is already trusted in production by many of the world’s leading companies, including Philips, Netflix, Leroy Merlin, and VMware.
Some numbers

32 of the top 100 universities in the THE Rankings 2023 are teaching Kotlin.

570K Active developers use Kotlin every month.

1M GitHub repositories currently use Kotlin as a primary language.
About Kotlin Foundation
What the Kotlin Foundation is

The Kotlin Foundation is a non-profit company whose mission is to promote and advance the Kotlin ecosystem by:
What the Kotlin Foundation is

1. Providing financial support to open-source projects and education initiatives
2. Controlling incompatible changes to the language
3. Preserving Kotlin trademarks
Founding members

JETBRAINS  Google
To fulfill our mission, we need more members to support us financially and by contributing new ideas.
Why join?
You’ll have the opportunity to directly influence the Kotlin ecosystem:

1. You’ll help to sustain the Kotlin ecosystem by providing financial support and guidance to the maintainers of open-source projects.

2. You’ll contribute to the board, committees, and workgroups, making decisions on funding distribution and the Foundation’s overall strategy.
Why join?

You’ll create a brand connection between Kotlin and your company:

1. You can use the Kotlin Foundation logo and indicate that you are part of the Kotlin Foundation

2. Your logo can appear on the kotlinfoundation.org website, as well as in a specific section of the kotlinlang.org website which gets 500K unique page views weekly
